**RE: Gearon Civil Testimonial**

Spaceframe engaged Gearon Civil to deliver the civil earthworks for Scott's Transport in Laverton.

The scope of works included Bulk Earthworks and the construction of both permanent and temporary engineered hardstand.

Gearon successfully completed their scope of works ahead of the required time and worked cooperatively with our team.

The management and workforce of Gearon were very accommodating of both our and our client's needs. The project was within an existing operating facility and the coordination of machinery movements within the existing operation was well handled by Gearon Civil.

I would recommend Gearon Civil Pty Ltd for similar civil projects. It would be a pleasure to work with them again. They are efficient, reliable and mindful of budget at all times.

Regards,

Bill O'Flaherty  
Construction Manager  
Spaceframe Buildings.
